

ADINVEST

International

Collaborative platform for economic
growth and **development**

The objectives of **ADINVEST International** :

- Facilitating links, cooperation and exchanges between various socio-economic actors in many EU countries with international partners, in the area of companies' funding, especially for SMEs.
Allowing SMEs to extend and develop their know-how and then, increasing the value is what the funding is aiming.
- Encouraging actions related to the funding by improving the relations between those different actors, and supporting with practical business actions to multiply the chances of success with the contribution of appropriate resources in each entrepreneurial context.
- Deploying innovative processes for entrepreneurial development to provide solutions to the focused economic ecosystem for facilitating, for example, private funding and business transmission.

WHAT IS IT ??

NETWORK

Facilitate the links between different actors through the established network both in the economic development and innovation.

FUNDINGS

Access to private or/and European funding, we bring concrete solutions in the economic field and business transfers with a clear priority on the case qualification.

DEVELOPMENT

Bring an openness to the international market opportunities and new growth perspectives evaluation for SMEs.

COLLABORATIVE PLATFORM

Allows a link between actors at EU level, and a visibility of any current actions adapted to each contributor rights and roles.

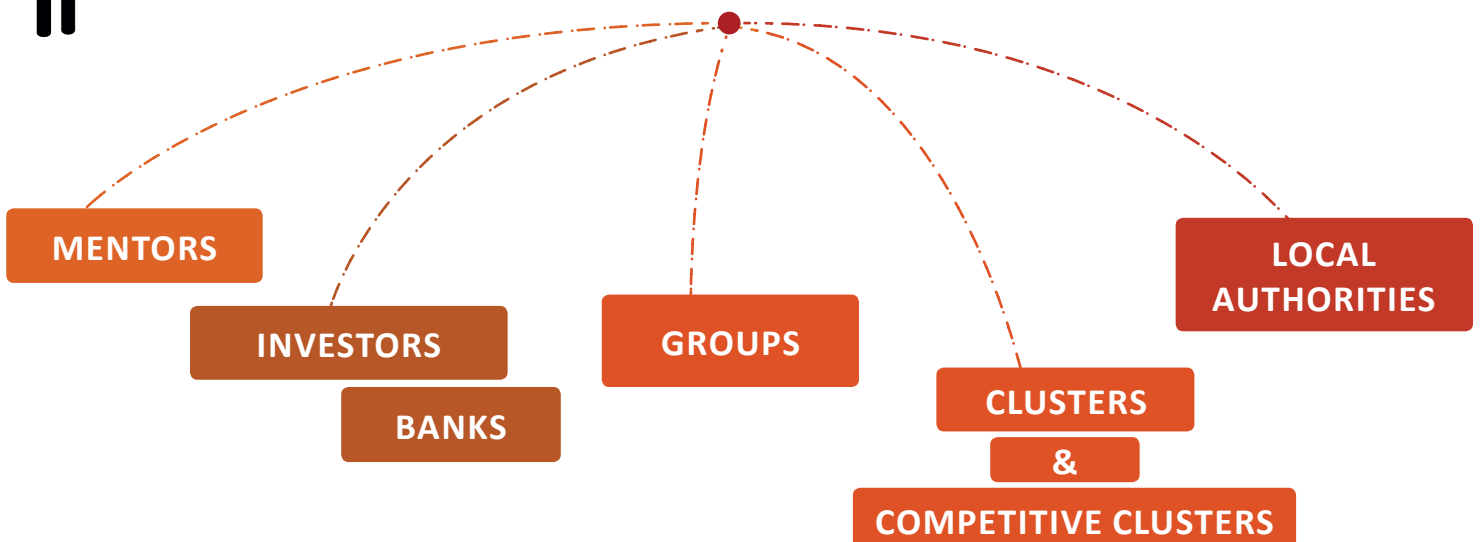

INTERNATIONAL

With the clear ambition to act locally, the ADINVEST International network is spread over 35 countries in the world.

WHO IS CONCERNED ?

ENTERPRISES

ADINVEST International actors in 35 countries

We bring solutions on a global scale by implementing approaches in compliance with different cultures in order to facilitate cooperations within different missions and capitalize on experiences to the benefit of customers.

A Network of mentors at the European level

Our mentors are selected and trained to complete their professional experiences. They are supported with a regular follow-up all along their cursus. With the co-funding of the EU, an European wide training network and labelling system is on the way of implementation. Their presence on the EU scale aims to support the companies which want to expend internationally.

Funding support

We have chosen a secured equity funding through our qualification process that would facilitate success for relevant projects and reduce funding risks.

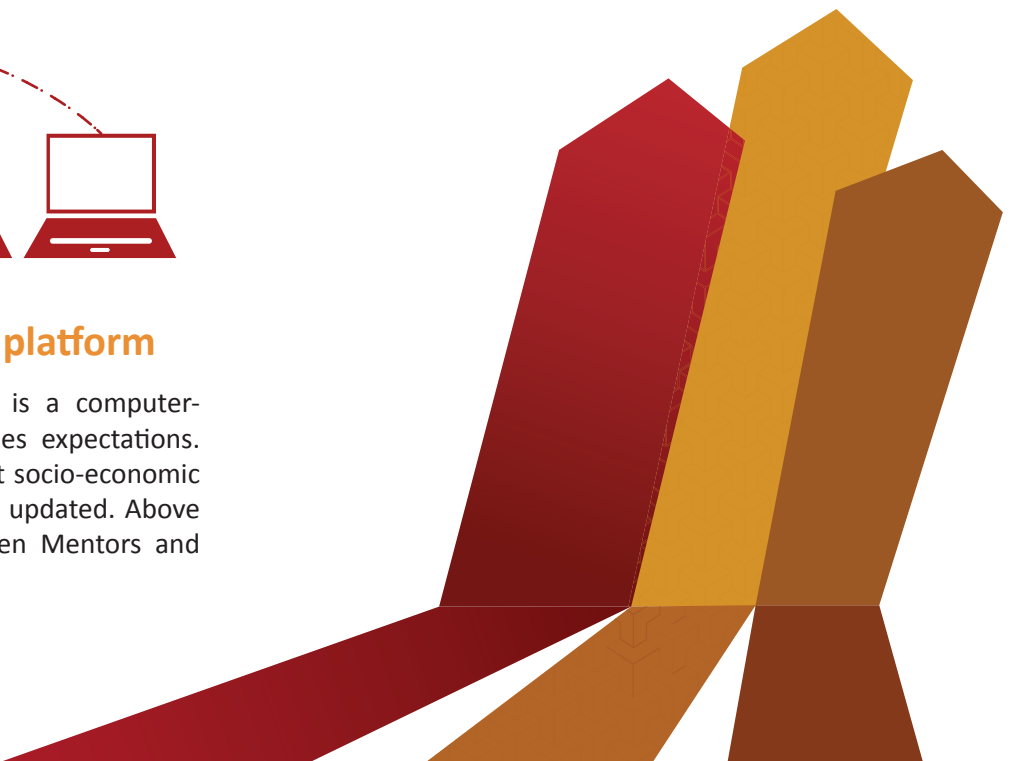

As Investors, you will find the ideal projects according your investment expectations.

The + : ADINVEST International allows you to easily access to EU fundings.

A multilingual collaborative platform

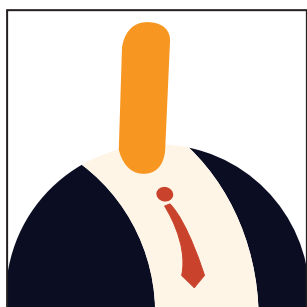

Our multilingual collaborative platform is a computer-based tool for supporting the companies expectations. Through that IT-platform, all the different socio-economic actors have access to datas permanently updated. Above all, it facilitates the interactivity between Mentors and Investors, Banks , Clusters....
