## International

Invest on **well-qualified** cases with clear added-value

### Objectives :

- Capital development,
- Minimise the investor's risk.

### Projects from existing companies :

Our targets companies all have a background. They should have know-how and potential to innovate and/or to expand.

We do not have priority areas. SME owners and partners should be open-minded and have capacity of adaptation. They should also have a measurable ambition. These companies can be located in all the countries where we are present.

### Looked-up added-value:

The perspectives of value creation are identified before any investors offer. They take into account the company's potentialities, the improvement vectors, the optimization of identified abilities, the perspectives of the opening to international market and european fundraising.

### Legal structure certainty :

All legal options are verified by specialized law firms. At least, they plan through a pact of partners, with management and exit clauses.

DIAGNOSTIC

## **ADINVEST International** secures your equity investment.

### Qualification process :

- Each case is selected ahead by our team. It should meet the clear criteria with identified targets.
- Once selected, a diagnosis is conducted. It can last from 5 to 15 days.
- The expansion on the export market and the crowdfunding are systematically included.
- After this diagnosis, a synthesis is made available online, using different confidentiality access rights, especially for the documents related to the company and its project.
- A dedicated dashboard is set-up in order to monitor the development and the implementation of your projects.

### **ADINVEST International** offers you visibility and monitoring possibilities.

Once you selected your investment method, you can monitor the evolution of the project from our platform.

### **ADINVEST International** allows you to diversify your investments.

Investing in SMEs with growth potential now is a very profitable investment.

The opening on new financial markets and products is one of our best society evolution.

### **ADINVEST International** means the possibility to participate and integrate a network of international investors.

Meeting and exchanging with investors from different countries and cultures is always "instructive". The economy, the markets are more and more open for most of our companies. The same applies to our investments.
