

ADINVEST

International

Brings you solutions in **business development** and **business transmission**

Within the framework of service agreement, our tools, resources and methods allow you to propose qualitative offers in order to support **SMEs growth**.

Our offer :

- **A methodological mentoring approach** internationally recognized and implemented within the framework of projects co-financed by the Erasmus+ programme of the European Union with the purpose of delivering an European certification.
- **A multilingual collaborative platform** where authorized stakeholders can interact mostly to get involved in SMEs' organization future (Banks, investors, groups, business buyers, territorial collectivities, development agencies, clusters, ...)
- **Organization of collaborative workshops** and specific training for customers on the approaches and international relations in order to build medium and long term perspectives with diversified sources of funding.

Develop new support services for SMEs

In compliance with the national and regional strategy of your financial institution, for **supplying development tools and/or Business transmission / installations** on your territories, **ADINVEST International** allows you to set up the **appropriate tools for the deployment of your business strategy** by reinforcing your existing resources using mutualised mechanisms for **a better risk management**.

- **A European mechanism**

ADINVEST International collaborates with institutions from 5 European countries for setting up **a certification of the SMEs mentors competences**, with the support of the European Union. Thus, mentors represent **local stakeholders in European territories** to support your entrepreneurial clients in sizing their projects with an international dimension.

- **Tools and methods**

Mentors contribute in the quality process in order to allow you an easy access to relevant information. And also the company's areas for improvement, to allow you being relevant in your missions with a complementary **added-value which favours the understanding and proximity with your companies' territory**.

What about reinforcing your services for SMEs ?

- Access to efficient and operational tools to build up perspectives for yours customers ,
- Bring to your customers a real preparation and better chances for success for their companies transmission,
- Provide funding perspective to your customers such as private funding and co-funding.

ADINVEST International, the collaborative platform for the performance of SMEs with a real know-how and development levers.
